The Energy Bar Association is an international, non-profit association of attorneys, non-attorney professionals, and students active in all areas of energy law. Founded in 1946 as the Federal Power Bar Association, the Association currently has approximately 2600 members. The Association’s voluntary membership is comprised of government, corporate, and private attorneys, as well as non-attorney professionals from across the globe, and includes law students interested in energy law. The mission of the Association is “to promote the professional excellence and ethical integrity of its members in the practice, administration, and development of energy laws, regulations and policies.” In addition to publishing the Energy Law Journal, the Association organizes and sponsors a number of activities, including a continuing legal education program in the fall of each year, as well as a program held in conjunction with the annual meeting in the spring that focuses on issues of current interest. The Association also sponsors six formal chapters in the United States and committees that monitor and report to the membership on developments of interest. Complete membership and subscription information can be obtained from the Association at 1020 - 19th Street, N.W. Suite 525, Washington D.C. 20036, or by contacting us at (202) 223-5625 or admin@eba-net.org.
