

FRIENDS OF BUEA SCHOOL FOR THE DEAF, INC.

May 30, 2011

Charitable Foundation of the Energy Bar Association

1990 M. Street, N. W. #350

Washington, DC 20036

Attn: Robert A. Weishaar, Jr., Treasurer,

Dear Mr. Weishaar,

Thank you for the very generous check for \$12,500, awarded by the Charitable Foundation of the Energy Bar Association to Friends of the Buea School for the Deaf, Inc. We have notified Mr. and Mrs. Njok Bibum, Administrators of the Buea School for the Deaf and they are thrilled with the news.

About a week ago, representatives from AES-Sonel visited the school again. They are now aware of the matching grant awarded by CFEBA and will send forward a contract to BSD stipulating that they will provide an equal amount as a charitable donation in order to bring electricity to the school which provides a needed service for children with disabilities.

It goes without saying, this is a dream come true! The grant will make it possible for students to again use the computers donated by the Peace Corps. Having electricity will extend time after daylight hours to focus on assignments and for general activities. Although these are the first advantages which come to mind, there are many other things we take for granted that the school will be able to tap into because they have electricity.

Thank you for your patience needed to gather needed information for the grant. We will keep you updated on the process as we collaborate with AES-Sonel.

Sincerely,

M. Teresa Arcari, President
