

ADRIANNE COOK

Federal Energy Regulatory Commission – Senior Energy Industry Analyst

Education: BS, Management, Clemson University; JD, Catholic University; MBA, George Mason University

Adrienne Cook is a Senior Energy Industry Analyst with the Federal Energy Regulatory Commission, Division of Pipeline Regulation in the Office of Energy Market Regulation (OEMR), focusing on oil matters. Adrienne previously worked as a Manager of Policy, Regulatory and Legal Analysis with the Association of Oil Pipe Lines (AOPL). She started her career as an attorney with a small communications law firm, focusing her practice on providing client compliance assistance with the Universal Service Fund, and also worked as a regulatory analyst at the Edison Electric Institute.

Adrienne has been active in the Energy Bar Association, serving as chair of the Oil and Liquids Pipeline Regulation Committee for 2010-2011. Adrienne's chapter entitled "The Business of Oil and Refined Products Pipelines" was included in a two-volume publication entitled "The Business of Transportation," published by the University of Alaska in May 2014. Previous publications include "Broadband over Power Line: The Potential Future of the Internet?" published by the American Bar Association Section of Public Utility, Communications and Transportation Law in 2004, and co-authoring "PPTS Guides Drop in Liquids Release Frequency, Scale" published by the *Oil and Gas Journal* in May 2010. She lives in Virginia with her husband and daughter.
