

Carter Schoenberg is the Executive Vice President of Cybersecurity Solutions with IPKeys Power Partners. Mr. Schoenberg is a Certified Information System Security Professional (CISSP) with over 25 years of combined experience in criminal investigations, cyber threat intelligence, cybersecurity, cyber risk management, and cyber law. His specialized experience in where cyber, legal and insurance considerations converge has helped both private and public sector leaders address general liability and Supply Chain Cyber Risk Management (SCRM) issues. His work products have been actively used by the U.S. Departments of Homeland Security and Defense, the Information Sharing and Analysis Center (ISAC) communities, and the Georgia Bar Association for Continuing Learning Educational (CLE) credits on the topic of cybersecurity risk and liability. His expertise has been profiled at conferences including: GridSecCON, EnergySEC, NTAEE, National Association of Insurance Commissioners (NAIC) Annual Conference, Council for Insurance Agents and Brokers (CIAB), ISC2, SecureWorld Expo, ISSA, Latin American Insurance & Reinsurance Forum, and InfosecWorld.
