The Federal Energy Bar Association is a non-profit corporation interested in the development of federal energy law. Founded in 1946 as the Federal Power Bar Association, the Association currently has approximately 1,700 members. Included in the membership are government, corporate and private attorneys in virtually all areas of federal energy practice. The objective of the Association is "to promote the proper administration of the federal laws relating to the production, development, conservation, transmission and economic regulation of energy." In addition to publishing the *Energy Law Journal*, the Association organizes and sponsors a number of activities, including a continuing legal education program during November of each year, as well as a program held in conjunction with the annual meeting each May which focuses on issues of current interest. The Association also sponsors a number of committees which monitor and report to the membership developments of interest. Complete membership and subscription information can be obtained from the Association at 1350 Connecticut Avenue, N.W., Suite 300, Washington, D.C. 20036 or by calling (202) 223-5625.

The *Energy Law Journal* is published two times a year. Articles by members and non-members of the Association are welcome. All manuscripts should be of substantial length, not previously published, deal with aspects of federal energy law and follow *A Uniform System of Citation*. A brief biographical statement should be included. All manuscripts should be sent to William A. Mogel, Editor-in-Chief, Squire, Sanders & Dempsey, P.O. Box 407, 1201 Pennsylvania Ave., N.W., Washington, D.C. 20044-0407. Only manuscripts submitted exclusively to the *Energy Law Journal* will be considered for publication. The opinions expressed in the published material are those of the writers and are not intended as expressions of views of the Federal Energy Bar Association. Inquiries about advertising in the *Energy Law Journal* should be addressed to Mr. Miller at (202) 296-2960. The *Energy Law Journal* is indexed in the INDEX TO LEGAL PERIODICALS, the CURRENT LAW INDEX, WESTLAW and LEXIS services.

## EDITOR'S PAGE

Twenty years have passed quickly. Here we are, writing about the *Journal*, which will publish Volume 20, No. 2 at the beginning of the next millennium. During the past two decades, the *Journal* has established itself as the premier energy law publication. How was this accomplished? It came down to a simple formula: lots of talented, motivated people, who believe it was important to analyze and chronicle the ever-changing energy industries. That formula should be a template for the future.

Those of us who are involved with the *Journal's* are continually asking the question, "How can we do things better?" The reason for this is obvious. Our members and readers deserve the highest quality product. To insure quality, our editors wield the sharpest pencils and ask the hardest questions, our student editors verify the details, and have come to believe that no citation is unimportant. Finally, the Board of the Foundation of the *Journal* is generous in their time and support.

With this issue, we note a changing of the guard, David Bloom, who co-authored the lead article appearing in Vol. 1, No. 1 at 1, has tendered his resignation as Article's Editor. His long service, significant efforts, and excellent judgment directly resulted in the publication of many outstanding articles. Carolyn Thompson, who has served diligently as a Student Notes Editor, will take David's place. In addition, this issue welcomes new Student Notes Editors—Stuart Conrad, Alex Goldberg (a Student Note Editor on Vol. 7, No. 2) and Kenneth Hurwitz.
