

**Sarah E. Edmonds, President and CEO, Northwest Power Pool Corporation, doing business as the Western Power Pool (WPP)**

Ms. Edmonds was selected in 2022 to be President and CEO of WPP. WPP is a nonprofit corporation that helps coordinate electric grid operations for the western United States and Canada. The WPP supports the activities of the Northwest Power Pool, which includes major utilities, generators, and energy managers who together work for increased grid efficiency and reliability, including WPP's administration of the regional resource adequacy program (WRAP), which seeks to enhance and increase reliability for entities across the footprint.

Prior to joining WPP, Ms. Edmonds spent nearly 11 years with PacifiCorp, starting as legal counsel, moving to director of transmission, before being named VP and general counsel. She moved to PGE in 2018 where she served as director of transmission and reliability. In these roles, she was responsible for development of strategy and policy recommendations relating to market expansion, regional resource adequacy development, emerging regional and national wholesale policy initiatives, and transmission expansion and cost recovery.
