

ERIN A. GREEN
Attorney, Transmission Infrastructure Program
Western Area Power Administration,
U.S. Department of Energy

Erin Green serves as an attorney-advisor at Western Area Power Administration (WAPA), U.S. Department of Energy (DOE), where she serves as lender's counsel to WAPA's Transmission Infrastructure Program (TIP), a \$3.25 billion loan program for electric transmission infrastructure development. Notably, Green served as WAPA's Chief of Staff for seven years where she provided one-on-one guidance and support to WAPA's Administrator and

CEO and led complex organizational assessments involving teams across WAPA's 15-state territory.

Green has also served multiple assignments in WAPA's Liaison Office in Washington, D.C., where she worked closely with various DOE officials, members of Congress and committee and subcommittee staff, the White House and its executive offices, and representatives from national trade associations. Most recently, she served as professional staff for a council of WAPA's regional Vice Presidents of Finance and Vice Presidents of Power Marketing in policy and program development, implementation, and reporting. Green began her tenure at WAPA by serving as legal counsel in WAPA's Office of General Counsel. There she provided counsel to WAPA's TIP in its earliest days, as well as represented WAPA's interests in other DOE transmission development programs.

Green received her J.D. from the University of Colorado School of Law in 2009 and received a B.S. in Environmental Science from Regis University in 2003, where she graduated magna cum laude. In 2015 she also earned an A.A.S. in Electrical Transmission System Technology from Bismarck State College. She is licensed to practice law in Colorado.

Green served several years as a director and officer of the Rocky Mountain Chapter of the Energy Bar Association, and most recently and served as chapter president for the 2020-2021 term.
